

tesa® SecuritySeal – recognising manipulation and theft at first glance

tesa® SecuritySeal

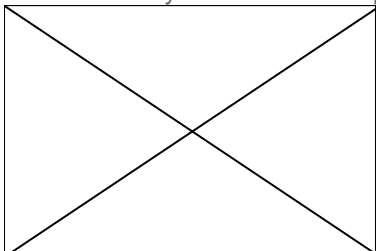

With tesa® SecuritySeal, a wide range of adhesive security tapes and security labels is at your disposal, which indicate **manipulations** or an unauthorized first opening of packages or closures with an irreversible optical effect. An unnoticeable re-closure of the security seal simply is not possible.

tesa® SecuritySeal in action

tesa scribos offers you all common roll, spool and many label sizes, so that the application of tesa® SecuritySeal products for theft prevention can be easily implemented in any dispatch or packaging department.

tesa® SecuritySeal: more transparency in the supply chain.

tesa® SecuritySeal 64007/64006

Cardboard sealing – tesa security tapes 64006/64007

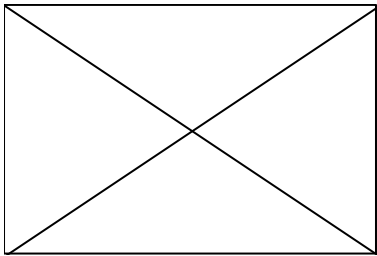

tesa products 64006/64007 are suited for any kind and size of cardboard packaging. Any attempt at opening the package is revealed. The tapes can be customized by individual imprints and are easy to apply by hand, using conventional dispensers or automatic machines.

tesa® SecuritySeal 64008

Pallet securing – tesa security tape 64008

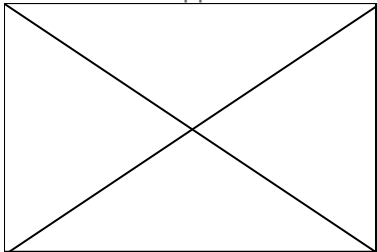

tesa 64008 is the ideal solution for pallet protection against theft and pilferage. Attempts to open or even to reclose the pallet can be identified immediately. The tape is suited for use with shrink and stretch films and is customized by individual imprints.

tesa® SecuritySeal 64010/64011

Security for sales packaging – tesa® SecuritySeal labels 64010/64011

These labels are particularly suitable for sealing small and medium-sized cardboard packaging. Optimum customisation is assured with the printing of client-specific inscriptions, trademarks or simple distribution information. Labels can also be equipped with a tailored security effect, such as one which features a warning with the brand name. A wide range of shapes and sizes as well as simple, manual or automated application ensure an extensive variety of convenient uses.

tesa® StretchSeal 64017

Sealing reusable containers – tesa® StretchSeal labels 64017

tesa® StretchSeal labels can be used to securely seal reusable crates which feature a wide range of formats and designs. These labels can be quickly and easily attached, reveal unauthorised access as a result of an irreversible change in their shape and can be removed without leaving any residue. They can be customised with a barcode, serial number and logo, which, firstly, enhance security and, secondly, can also be used for track and trace purposes.

tesa® SecuritySeal 64012

Securing roll cages – tesa security seal tag 64012

The tesa security seal tag is ideal for reusable containers and cages. The tag can be customized with e.g. logos and individualized with serial numbers and corresponding barcodes. Easy application with the tesa dispenser and residue free removal offers a comfortable handling of the tag.
